## What to do with it when you're done with it

By Elizabeth Knight

It's in with the new, out with the old. But before you lug it to the dumpster, take a look at this list to see if your "trash" might find a new home. From bikes to refrigerators, we have a strong secondhand ecosystem that can divert your surplus to fill others' needs. Tear this out and tape it up for reference, or use our searchable online database at [strausnews.com/recyclopedia](http://strausnews.com/recyclopedia).
